LAKE ENGLEBRIGHT: is at an elevation of 527 feet and is located off of Hwy 20 just west of Penn Valley about an hour from the Auburn Elks Lodge. Skipper's Cove, 13104 Marina Drive, Smartsville, 95977. The lake has a surface area of 815 acres with a shoreline of 24 miles that snakes 9 miles long above the dam. It is well stocked with trout provided by PG&E, DF&W, and Skipper's Cove Concessionaire's private pen program. Reasons why we are holding our last club sponsored fishing event of the year on Englebright is because the lake is 98% full; it has a large populations of trout, bass, brown trout, kokanee, and catfish; it is a short drive for the majority of event participants; and has a decent launch ramp with a dock. In case of inclement weather, there are wind protected areas on the lake with **the tourney taking place even if it rains.** However, cancelation of the event will occur due to unsafe (severe) weather, if you signed-up in advance, you will be notified by email. If you did not attend our October breakfast meeting and want to join the already signed-up to participate, call Art Stonebraker 530-885-0679 or email to art-jan@prodigy.net.
